# act_report

结论1：获取的数据中，通过**source_text**的数据可以看出，大部分的用户是从'Twitter Web Client'发出的。

结论2：转发数最多的tweet是

```
In [560]:  # 查看转发数最多的tweet
           pd.set_option('max_colwidth',2000)
           twitter_archive_master[twitter_archive_master.retweet_count==twitter_archive_master.retweet_count.max()].full_text

Out[560]:  7    When you watch your owner call another dog a good boy but then they turn back to you and say you're a great boy. 13/10 https://t.co/v0n
           ONBcwxq
           Name: full_text, dtype: object
```

When you watch your owner call another dog a good boy but then they turn back to you and say you're a great boy. 13/10

https://t.co/v0nONBcwxq

结论3：favorite数最多的tweet

```
In [561]:  # 查看favorite最多的tweet
           twitter_archive_master[twitter_archive_master.favorite_count==twitter_archive_master.favorite_count.max()].full_text

Out[561]:  34   This is Earl. He found a hat. Nervous about what you think of it. 12/10 it's delightful, Earl https://t.co/MYJvdlNRVa
           Name: full_text, dtype: object
